In view of the appeal brief filed on January 18, 2005, PROSECUTION IS
HEREBY REOPENED. New grounds of rejection are set forth below.

To avoid abandonment of the application, appellant must exercise one of the
following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply
under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed
by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and
appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth
in 37 CFR 41.20 have been increased since they were previously paid, then appellant
must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by
signing below:

MILTON I. CANO
SUPERVISORY PATENT EXAMINER
TECHNOLOGY CENTER 1700

Claim 1 is objected to because of the following informalities: line 4, the semi-
colon after "sugars" should be replaced with a comma. Appropriate correction is
required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson et al (US 6479082) or El-Nokaly (US 5599555).

Johnson et al teach a composition comprising 0.1% to about 15% by weight flavor, about 5% to about 95% by weight bulking and sweetening agents (e.g. sugar), and about 0.005% to about 1% by weight hydroxypropyl cellulose (see entire document, especially Example 1 and claims 1-2).

El-Nokaly teaches an encapsulated flavor/fragrance comprising a flavor/fragrance, hydroxypropyl cellulose, and an additional component including for example fats, silica, starch, and emulsifiers in the amounts claimed (see entire patent, especially Table 1, column 9, line 48- column 10, line 9, and claims 1, 7, 9, 10, 13, 15, and 18).

Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Zerbe et al (US 6660292).

Zerbe et al teach a composition comprising from about 20% to about 70% hydroxypropyl cellulose, from about 5% to about 70% modified starch, and up to about 60% of a flavor ingredient (see entire document, especially claims 1-3).

The temperature and viscosity limitations are seen to be no more than inherent to that of Johnson et al, El-Nokaly, and Zerbe et al as the same components are used.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leslie Wong whose telephone number is 571-272-1411. The examiner can normally be reached on Tuesday-Friday.
